Questions to Consider While Viewing	
How did they describe a data center?	
Who did the presentation follow most?	
How many people have access to the data center?	
How many man-hours did they pass with zero loss time incidents?	
What's special about the information security team?	
What's the temperature in the room?	
Why do they custom build the server racks?	
What does the man think when people say innovation has hit its peak?	

Questions to Consider After Viewing	
What was the main point?	
Who was the intended audience for this?	
What types of persuasion were used?
